I am a full stack interactive designer based in Portland with a special focus on UI/UX. I am currently seeking freelance or full time opportunities.

Experience

Freelance (2006 - present) - Running and operating Puddletown Design since 2006. Managing project teams, Design and user Interface testing, marketing, accounting and client management.

LET Group (2012-2015) - Working directly with clients implementing and customizing website layouts for large hotel chains. Configuring booking forms, content strategy and handled design phase client relations.

Haze Media (2008 - 20011) - Working on a diverse set of projects, utilizing AS3, HTML & PHP, Clients include: Koro Sun Resort (Fiji), Path Finder Products International, Marshak Clinic.

Skills

CSS (11 years) - Mastery of the current CSS3 working draft, with an focus on progressive enhancement for compatible browsers and browser specific properties. I mainly work with SASS/SCSS.

PHP (8 years) - Very strong skills in Object Oriented PHP5, basic understanding of design patterns with a focus on encapsulated and modular code. E_STRICT code base.

HTML (11 years) - Minimal and extremely clean HTML5 code usually marked up with Schema.org, ARIA or other semantics.

SQL (8 years) - Functional knowledge of SQL. Strong skills structuring and optimizing information. Experience includes working with prepared statements in PDO/mysqli with MySQL and SQLite and basic database optimizations.

Javascript (10 years) - Focus on implementing progressively enhanced javascript. Strong skill set working with jQuery for browser apps. Moderate experience working with node.

CMS/ Frameworks - Experience modifying and theming Drupal, Joomla and Wordpress. Ability to write custom modules and plugins. Experience working with Laravel, Slim & CodeIgniter. I've also developed my own frameworks.

Preferred Development Environment - Mac OS X, Textmate, Vargrant/Ubuntu, Git

Recent Work

Quicknotes - OOP Javascript application built to take notes to localstorage. Has basic API support for get requests.
